This article looks at the Internet and the changing set of requirements for the Internet as it becomes more commercial, more oriented toward the consumer, and used for a wider set of purposes. We discuss a set of principles that have guided the design ...

Keywords: ISP, Internet, end-to-end argument

4 [Computer forensics: a critical need in computer science programs](#)

John D. Fernandez, Stephen Smith, Mario Garcia, Dulal Kar
April 2005 Journal of Computing Sciences in Colleges. Volume 20 Issue 4
Publisher: Consortium for Computing Sciences in Colleges

Additional Information: [full citation](#), [abstract](#),

Full text available:  pdf(140.61 KB)

[references](#), [cited by](#), [index terms](#)

The number of computer security incidents is growing exponentially and society's collective ability to respond to this crisis is constrained by the lack of trained professionals. The field of computer forensics is relatively new and this paper describes ...

5 [Distributed PIN verification scheme for improving security of mobile devices](#)

Jian Tang, Vagan Terziyan, Jari Veijalainen
April 2003 Mobile Networks and Applications. Volume 8 Issue 2
Publisher: Kluwer Academic Publishers

Additional Information: [full citation](#), [abstract](#),

Full text available:  pdf(299.43 KB)

[references](#), [cited by](#), [index terms](#)

The main driving force for the rapid acceptance rate of small sized mobile devices is the capability to perform e-commerce transactions at any time and at any place, especially while on the move. There are, however, also weaknesses of this type of e-commerce, ...

Keywords: measure, mobile device, probability, risks, security, uncover

6 [An approach to enhance inter-provider roaming through secret sharing and its application to WLANs](#)

Ulrike Meyer, Jared Cordasco, Susanne Wetzel
September 2005 WMASH '05: Proceedings of the 3rd ACM international workshop on Wireless mobile applications and services on WLAN hotspots
Publisher: ACM

Additional Information: [full citation](#), [abstract](#),

Full text available:  pdf(279.20 KB)

[references](#), [index terms](#)

In this paper, we show how secret sharing can be used to address a number of shortcomings in state-of-the-art public-key-based inter-provider roaming. In particular, the new concept does not require costly operations for certificate validation by the ...

Keywords: 802.11i, EAP-TLS-KS, PKI, WLAN, distributed DSS, inter-provider roaming, micropayment scheme, secret sharing

7 [Designing an architecture for delivering mobile information services to the rural developing world](#)

Tapan S. Parikh, Edward D. Lazowska

May 2006 WWW '06: Proceedings of the 15th international conference on World Wide Web

Publisher: ACM

Additional Information: [full citation](#), [abstract](#),

Full text available: [pdf\(706.61 KB\)](#)

[references](#), [cited by](#), [index terms](#)

Implementing successful rural computing applications requires addressing a number of significant challenges. Recent advances in mobile phone computing capabilities make this device a likely candidate to address the client hardware constraints. Long battery ...

Keywords: ICT, client-server distributed systems, mobile computing, mobile phones, paper user interface, rural development

8 [Risks to the public](#)

Peter G. Neumann

November 2006 ACM SIGSOFT Software Engineering Notes, Volume 31 Issue 6

Publisher: ACM

Full text available: [pdf\(374.71 KB\)](#) Additional Information: [full citation](#), [abstract](#)

Edited by Peter G. Neumann (Risks Forum Moderator and Chairman of the ACM Committee on Computers and Public Policy), plus personal contributions by others, as indicated. Opinions expressed are individual rather than organizational, and all of the usual ...

9 [Risks to the public](#)

Peter G. Neumann

September 2006 ACM SIGSOFT Software Engineering Notes, Volume 31 Issue 5

Publisher: ACM

Full text available: [pdf\(281.86 KB\)](#) Additional Information: [full citation](#), [abstract](#), [index terms](#)

Edited by Peter G. Neumann (Risks Forum Moderator and Chairman of the ACM Committee on Computers and Public Policy), plus personal contributions by others, as indicated. Opinions expressed are individual rather than organizational, and all of the usual ...

10 [Requirements for scalable access control and security management architectures](#)

Angelos D. Keromytis, Jonathan M. Smith

May 2007 ACM Transactions on Internet Technology (TOIT), Volume 7 Issue 2

Publisher: ACM

Full text available:  pdf(365.56 KB)

Additional Information: full citation, abstract,
references, index terms

Maximizing local autonomy by delegating functionality to end nodes when possible (the end-to-end design principle) has led to a scalable Internet. Scalability and the capacity for distributed control have unfortunately not extended well to resource access-control ...

Keywords: Large-scale systems, access control, authorization, credentials, delegation, distributed systems, security policy, trust management

11 Signalling analysis in integrated 4G networks

Hakima Chaouchi, Ivan Armuelles, Ivan Ganchev, Máirtín O'Droma, Nino Kubinidze

January 2006 International Journal of Network Management. Volume 16
Issue 1

Publisher: John Wiley & Sons, Inc.

Full text available:  pdf(517.12 KB)

Additional Information: full citation, abstract,
references, index terms

Scarce radio resources and the ambition to increase the number of mobile customers with a guarantee of service are pushing mobile communication systems from homogeneous non-service convergent 2G and convergent-service 2.5G and 3G wireless systems to ...

12 The interrelationship and effect of culture and risk communication in setting internet banking security goals

Ioannis V. Koskosas, Ray J. Paul

March 2004 I CEC '04: Proceedings of the 6th international conference on Electronic commerce

Publisher: ACM

Full text available:  pdf(291.91 KB)

Additional Information: full citation, abstract,
references

The aim of this research is to investigate information systems security in the context of internet banking. In doing so, it adopts a socio-organizational approach to the subject matter by investigating the interrelationship between culture and risk communication ...

Keywords: culture, information management, internet banking, risk communication, security

13 Exploring bluetooth based mobile phone interaction with the hermes photo display

Keith Cheverst, Alan Dix, Daniel Fitton, Chris Kray, Mark Rouncefield, Corina Sas, George Sastis-Lagoudakis, Jennifer G. Sheridan

September 2005 MobileHCI '05: Proceedings of the 7th international conference on Human computer interaction with mobile devices & services

Publisher: ACM

Additional Information: full citation, abstract,

Full text available:  pdf(669.78 KB)

[references](#), [cited by](#), [index terms](#)

One of the most promising possibilities for supporting user interaction with public displays is the use of personal mobile phones. Furthermore, by utilising Bluetooth users should have the capability to interact with displays without incurring personal ...

Keywords: bluetooth, interaction, mobile phones, situated displays

14 [The Satchel system architecture: mobile access to documents and services](#)

Mike Flynn, David Pendlebury, Chris Jones, Marge Eldridge, Mik Lamming
December 2000 Mobile Networks and Applications, Volume 5 Issue 4
Publisher: Kluwer Academic Publishers

Full text available:  pdf(207.51 KB)

Additional Information: [full citation](#), [abstract](#),

[references](#), [cited by](#), [index terms](#)

Mobile professionals require access to documents and document‐related services, such as printing, wherever they may be. They may also wish to give documents to colleagues electronically, as easily as with paper, face‐to‐face, and with ...

15 [Risks to the public in computers and related systems](#)

Peter G. Neumann

March 2004 ACM SIGSOFT Software Engineering Notes, Volume 29 Issue 2

Publisher: ACM

Full text available:  pdf(165.39 KB) **Additional Information:** [full citation](#)

16 [Secure authentication system for public WLAN roaming](#)

Yasuhiko Matsunaga, Ana Sanz Merino, Takashi Suzuki, Randy H. Katz

September 2003 WMASH '03: Proceedings of the 1st ACM international workshop on Wireless mobile applications and services on WLAN hotspots

Publisher: ACM

Full text available:  pdf(248.60 KB)

Additional Information: [full citation](#), [abstract](#),

[references](#), [cited by](#), [index terms](#)

A serious impediment for seamless roaming between independent wireless LANs (WLANs) is how best to confederate the various WLAN service providers, each having different trust relationships with individuals and each supporting their own authentication ...

Keywords: authentication, hotspot, link layer security, policy control, roaming, single sign-on, wireless LAN

17 [Building reliable mobile-aware applications using the Rover toolkit](#)

Anthony D. Joseph, M. Frans Kaashoek

October 1997 Wireless Networks. Volume 3 Issue 5
 Publisher: Kluwer Academic Publishers

Additional Information: full citation, abstract,

Full text available:  pdf(371.04 KB)

references, cited by, index
 terms

This paper discusses extensions to the Rover toolkit for constructing reliable mobile-aware applications. The extensions improve upon the existing failure model, which addresses client or communication failures and guarantees reliable message delivery ...

18 News track

Robert Fox
 December 1997 Communications of the ACM. Volume 40 Issue 12
 Publisher: ACM

Full text available:  pdf(95.29 KB) **Additional Information:** full citation, index terms

19 Four dark corners of requirements engineering

Pamela Zave, Michael Jackson
 January 1997 ACM Transactions on Software Engineering and
 Methodology (TOSEM). Volume 6 Issue 1
 Publisher: ACM

Additional Information: full citation, abstract,

Full text available:  pdf(434.26 KB)

references, cited by, index
 terms, review

Research in requirements engineering has produced an extensive body of knowledge, but there are four areas in which the foundation of the discipline seems weak or obscure. This article shines some light in the "four dark corners," exposing ...

Keywords: control of actions, domain knowledge, implementation bias, refinement of requirements

20 Report of the national workshop on internet voting: issues and research agenda

C. D. Mote, Jr.
 May 2002 dg.o '02: Proceedings of the 2002 annual national conference on
 Digital government research
 Publisher: Digital Government Research Center

Full text available:  pdf(539.99 KB) **Additional Information:** full citation

5 Information leakage from optical emanations

Joe Loughry, David A. Umphress

August 2002 ACM Transactions on Information and System Security (TISSEC), Volume 5 Issue 3

Publisher: ACM

Full text available: pdf(382.77 KB)

Additional Information: full citation, abstract, references, cited by, index terms

A previously unknown form of compromising emanations has been discovered. LED status indicators on data communication equipment, under certain conditions, are shown to carry a modulated optical signal that is significantly correlated with information ...

Keywords: COMINT, COMSEC, EMSEC, SIGINT, TEMPEST, communication, compromising emanations, covert channel, encryption, fiber optics, information displays, light emitting diode (LED)

6 Can you infect me now?: malware propagation in mobile phone networks

Chris Fleizach, Michael Liljenstam, Per Johansson, Geoffrey M. Voelker, Andras Mehes

November 2007 WORM '07: Proceedings of the 2007 ACM workshop on Recurring malcode

Publisher: ACM

Full text available: pdf(946.28 KB)

Additional Information: full citation, abstract, references, index terms

In this paper we evaluate the effects of malware propagating using communication services in mobile phone networks. Although self-propagating malware is well understood in the Internet, mobile phone networks have very different characteristics in terms ...

Keywords: cellular phone networks, defenses, epidemiology, measurement, simulation, worms
